IDENTIFIERS *Arizona

ABSTRACT

This resource guide is an alphabetical listing of information on Arizona's universities, colleges, and career schools. It provides a summary of accreditation including institutional and specialized accreditation, a listing of accrediting agencies, general education development, and student financial aid information. This resource guide begins with an alphabetical listing of Arizona institutes. It then gives a listing of postsecondary sectors, which lists state universities, public community colleges, independent colleges and universities, program-oriented schools and bible and divinity schools, business schools, cosmetology and barber schools, flying schools, health schools, home study and correspondence schools, modeling and fine arts schools, real estate schools, technical and trade schools, and training, employment and skill centers. This resource guide also provides a list of programs of study (such as accounting, astronomy, chemistry, computers and information systems, education, graphic design, finance and banking, library science, social services, and zoology) and the institutions where these majors are offered. It describes new opportunities provided by the Western Undergraduate Exchange (WUE) for 1999-2000. A list of institutions and programs open to eligible WUE students on a space available basis is also outlined. The remaining portion of this resource guide presents each institution's unique admission guidelines, program requirements, and course offerings. (VWC)

WELCOME

By picking up the Arizona College and Career Guide, you are taking the first step toward your postsecondary education. Your postsecondary education is one of the most important decisions of your life. It is the first step toward a new choice and a new future.

This resource guide is an alphabetical listing of information on Arizona's universities, colleges, and career schools. Each school is different in many ways. Each has unique admission guidelines, program requirements, and course offerings. It is up to you to get the information you need.

Once you have narrowed your choices to several institutions:

CALL

the schools you are interested in attending and request admission and financial aid applications and a college catalog. Ask any questions you may have. The catalog is the best source of information you can get from the school. Most catalogs list courses and their general descriptions along with basic requirements for the certificates or degrees the school offers.

each school. See if you like the campus; talk to faculty, staff, and students; stop by the job placement or career services office and find out what companies recruit graduating students; inquire at the financial aid office about grants, loans, and other forms of assistance.

about your education carefully. It is the foundation of your future career path.

The Arizona Commission for Postsecondary Education welcomes your feedback as to what you find useful and suggestions as to how we might improve our next edition. Call us and let us know what you think. Our number is (602) 229-2591 or E-Mail at: toni@www.acpe.asu.edu

ACCREDITATION

Voluntary accreditation as carried out by the various accrediting bodies is a process uniquely American. Accreditation is sought voluntarily by institutions and is conferred by non-governmental bodies. Voluntary accreditation has two fundamental purposes: (1) quality assurance and (2) institutional and program improvement. There are two types of educational accreditation: institutional accreditation and specialized accreditation.

INSTITUTIONAL ACCREDITATION

Institutional accreditation evaluates an entire institution and accredits it as a whole. An institutional accrediting body evaluates more than the formal educational activities of an institution; it assesses as well such characteristics as governance and administration, financial stability, admissions and student personnel services, institutional resources, and relationships with outside communities.

Several agencies provide institutional accreditation. Within the Commission on Recognition of Postsecondary Accreditation (COPA), a national umbrella organization for accrediting associations, six regional (Middle States, New England, North Central, Northwest, Southern, and Western) and six other accrediting associations are recognized as institutional accrediting associations. Some, such as the Association of Theological Schools and the American Association of Bible Colleges, provide institutional accreditation for institutions with particular religious purposes. Others, such as the Accrediting Council for Independent Colleges and Schools and the Accrediting Commission for Career Schools/Colleges of Technology, accredit primarily institutions that are for-profit. The National Home Study Council accredits institutions that provide correspondence programs.

SPECIALIZED ACCREDITATION

Specific programs within a educational institution can also seek accreditation. This specialized (or program) accreditation evaluates particular units, schools, or programs within an institution and is often associated with national professional associations, such as those for engineering, medicine, or law, or with specific disciplines, such as business, education, psychology, or social work. There are more than forty such specialized bodies recognized by COPA.

ACCREDITING AGENCIES

REGIONAL INSTITUTIONAL ACCREDITING ASSOCIATIONS

MSACHE	Middle States Association of Colleges and Schools
NWASC	Northwest Association of Schools and Colleges
NCA	North Central Association of Colleges and Schools
NEACHE	New England Association of Schools and Colleges
SACS	Southern Association of Colleges and Schools
WASC	Western Association of Schools and Colleges

NATIONAL INSTITUTIONAL AND SPECIALIZED ACCREDITING AGENCIES AND ASSOCIATIONS

AABC	American Association of Bible Colleges
ABA	American Bar Association
ABET	Accreditation Board for Engineering and Technology, Inc.
ABHES	Accrediting Bureau of Health Education Schools
ACCET	Accrediting Council for Continuing Education and Training
ACHE	American Council of Hypnotist Examiners
ACCSC	Accrediting Commission for Career Schools/Colleges of Technology
ADA	American Dental Association
AMA	American Medical Association
ACICS	Accrediting Council for Independent Colleges and Schools
AMTA	American Massage Therapy Association
ATSUSC	Association of Theological Schools in the United States and Canada
CAHEA	Committee on Allied Health Education and Accreditation
DETC	Distance Education and Training Council
IMDHA	International Medical & Dental Hypnotherapy Association
JRCERT	Joint Review Committee for Education in Radiological Technology
JRCOMP	Joint Review Committee for Ophthalmic Medical Personnel
JRCRTE	Joint Review Committee for Respiratory Therapy Education
NACCAS	National Accrediting Commission of Cosmetology Arts and Sciences
NATTS	National Association of Trade and Technical Schools
NBHHA	National Board of Hypnotherapy & Hypnotic Anesthesiology
NCRA	National Court Reporting Association
NLN	National League of Nursing, Inc.

GENERAL EDUCATION DEVELOPMENT

To enter most programs of study, a student must have a high school diploma or a General Education Development (GED) certificate. The GED is a national test accepted by most employers and postsecondary schools as an equivalent to a high school diploma. For more information on the GED and to find the test center closest to you, call the U.S. Department of Education at:

1(800) 62-MY-GED

1(800) 626-9433

Additional GED information may be obtained by calling:

Arizona Department of Education

(602) 542-5802

STUDENT FINANCIAL AID

Recent studies show many high school students are not aware they are eligible for financial aid to attend college or vocational school. Unfortunately, many of the neediest students assume they cannot afford to enroll in studies past high school to continue their education. As a prospective college or vocational student, the federal government offers you three general types of financial aid:

- Grants, which are financial aid funds you do not have to pay back;
- Work-Study, which lets you work and earn money to help pay for school; and
- Loans, which are borrowed money you must repay with interest.

To find out more about the above student financial aid programs, write for a free copy of the *Student Guide* from:

Federal Student Aid Information Center

P.O. Box 84, Washington DC 20044

For answers to specific questions about federal student financial aid matters, you may call the number below at the Federal Student Aid Information Center between 8:00 a.m. and 7:00 p.m. (Central Time), Monday through Friday:

1(800) 4-FED AID (1-800-433-3243) - The Information Center will:

- help you answer questions asked when you apply for aid;
- check whether a school takes part in federal student aid programs;
- explain student eligibility requirements; and
- explain the process to determine financial aid awards.

If you are hearing-impaired, you may call the toll-free TDD number, 1(800) 730-8913, at the Information Center for assistance.

The following major student financial aid programs are available:

Federal Pell Grants

Federal Stafford Loan Program (Stafford)

Federal Direct Student Loans (at some schools)

Federal Work-Study (FWS)

Federal Perkins Loans

Federal Supplemental Loans for Students (SLS)

Federal Supplemental Educational Opportunity Grants (FSEOG)

Bureau of Indian Affairs Program (BIA)

Job Training Partnership Act (JTPA)

Federal Plus Loan Program (PLUS)

Leveraging Educational Assistance Partnership (LEAP) - formerly known as the State Student Incentive Grant (SSIG)

Additionally, each school may have institutional student aid available. For additional information about institutionally sponsored student financial aid, contact the financial aid administrator at the school you are considering. He or she can tell you what financial aid programs are available at that institution.

If you need financial aid for your postsecondary education, get in touch with the financial aid officer at the institution you want to attend and do it as early as you can.

NOTICE

The Arizona College & Career Guide is published for informational purposes only so that citizens of Arizona may be aware of the postsecondary educational opportunities available throughout the state. Every effort is made to contact organizations which claim status as an Arizona postsecondary institution. Omission of any postsecondary institution, financial assistance, or instructional program is unintentional, or due to the lack of response to the Commission survey. The course offerings, course length, and costs are those in effect at the time the Commission conducts its survey and subject to change throughout the academic year.

The Arizona Commission for Postsecondary Education makes no attempt to approve, recommend, rate, accredit, or otherwise endorse the institutions listed in this directory.

Prospective students should contact the institution of their choice to obtain the latest information.

WUE WESTERN UNDERGRADUATE EXCHANGE 1999-2000

What is WUE?

WUE is the Western Undergraduate Exchange, a program coordinated by the Western Interstate Commission for Higher Education (WICHE). Through WUE, students in western states may enroll in many two-year and four-year college programs at a reduced tuition level: 150 percent of the institution's regular resident tuition. In all cases, WUE tuition is considerably less than non-resident tuition.

Which States Participate?

For academic year 1999-2000, the eleventh year of WUE's operation, resident students from the following states may participate if they meet eligibility requirements:

Alaska	Hawaii	Nevada	Oregon	Washington
Arizona	Idaho	New Mexico	North Dakota	Wyoming
Colorado	Montana	Utah		

NOTE: Residents of Hawaii may enroll as WUE students in four-year programs only.

Programs Available

Virtually all undergraduate fields are available to WUE students at the participating colleges and universities. Some institutions have opened their entire curriculum on a space-available or first-come, first-serve basis; others offer only designated programs.

WUE Bulletin

To learn of the wide array of programs available, consult the WUE Bulletin. For more detail, examine individual college and university catalogs. The WUE Bulletin is available from high school counselors and admissions offices in participating institutions.

Eligibility

Some institutions require evidence of academic performance, such as ACT/SAT test scores or high school GPA, or place other limits on WUE enrollment. Consult the *WUE Bulletin* for details.

Application and Admission

If interested, apply for admission and WUE tuition status directly to the institution(s) of your choice. **Mark prominently on the institution's application form that you seek admission as a WUE student.**

Further Information

Further information about specific programs in WUE may be obtained from the admissions office of the participating institution.

General questions may be addressed to Student Exchange Programs, Western Interstate Commission for Higher Education, P.O. Box 9752, Boulder, Colorado 80301-9752; or call (303) 541-0210 or visit our web site at <http://www.wiche.edu>.

Arizona residents may contact the Arizona WICHE Certifying Officer at WICHE Student Exchange Programs, Arizona Board of Regents, 2020 North Central Avenue, Suite 230, Phoenix, Arizona 85004; phone (602) 229-2500.

Institutions and Programs open to Eligible WUE Students on a Space Available Basis

Alaska - Since many certificate and associate degree programs available to WUE students are provided in University of Alaska four-year institutions, students should review both this and the following section describing four institutions. (Alaska will accept students from all WICHE states.)

TWO-YEAR INSTITUTION

Prince William Sound Community College
- designated programs

FOUR-YEAR INSTITUTIONS

University of Alaska Anchorage

- designated programs

University of Alaska Fairbanks

- designated programs

University of Alaska Southeast

(three campus locations) - designated programs

CALIFORNIA

(California Maritime Academy will accept students from all WICHE States.)

Four-Year Institution

California Maritime Academy

- all programs; 24 students per year

Colorado

TWO-YEAR INSTITUTIONS

Aims Community College

- all programs except Radiologic Technology

Arapahoe Community College

- all programs

Colorado Northwestern Community College

- all programs except Dental Hygiene or any of the Criminal Justice Program Academies

Community College of Aurora

- all programs

Community College of Denver

- all programs

Front Range Community College

- all programs except nursing

Lamar Community College

- all programs except nursing

Morgan Community College

- all programs

Northeastern Junior College

- all programs except nursing

Otero Junior College

- all programs except nursing

Pikes Peak Community College

- all programs except Natural Resource Technology and Integrated Circuit Fabrication Technology

Pueblo Community College

- all programs except health-related programs

Red Rocks Community College

- all programs

Trinidad State Junior College

- all programs except health-related programs and gunsmithing

Four-Year Institutions

Colorado State University

- designated programs; consult CSU Viewbook

Fort Lewis College

- limited to 40 students; not all classes open

Mesa State College

- all programs

Metropolitan State College of Denver

- designated programs

University of Colorado Health

Sciences Center

- Child Health Associate (senior year) and B.S., Nursing

University of Northern Colorado

- all programs, first 100 students

University of Southern Colorado

- all programs

HAWAII

FOUR-YEAR INSTITUTIONS

University of Hawaii at Hilo

- programs in College of Arts and Sciences and College of Agriculture

University of Hawaii at Manoa

- designated programs, first 100 students

IDAHO

TWO-YEAR INSTITUTIONS

College of Southern Idaho

- all programs

North Idaho College

- all programs

FOUR-YEAR INSTITUTIONS

Boise State University

- over-subscribed programs not available; because participation is limited, final selections are based on GPA, test scores, and other criteria
Idaho State University

- over-subscribed programs not available; because participation is limited, final selections are based on GPA, test scores, and other criteria
Lewis-Clark State College

- over-subscribed programs not available

University of Idaho

- designated programs; over-subscribed programs not available; limited to 98 students each fall

MONTANA

TWO-YEAR INSTITUTIONS

Dawson Community College

- all programs

Helena College of Technology

- designated programs; see Bulletin

Montana Tech College of Tech.

- all programs; see Bulletin

University of Montana - Missoula

- designated programs

FOUR-YEAR INSTITUTIONS

Montana State University - Billings

- designated programs; see Bulletin

Montana State University-Bozeman

- the WUE scholarship will not be tied

Montana State University Northern

- all programs; first come, first serve

Montana Tech of the University of

- all programs

University of Montana Missoula

- all programs

Western Montana College of the

- all programs

NEVADA

TWO-YEAR INSTITUTIONS

Community College of Southern

- all programs; only new students

Truckee Meadows Community

- all programs; only new students

Western Nevada Comm. College

- all programs; only new students

FOUR-YEAR INSTITUTIONS

University of Nevada, Las Vegas

- all programs; only new students

University of Nevada, Reno

- all programs; only new students

Institutions and programs Open to Eligible WUE Students On a Space Available Basis

New Mexico

TWO-YEAR INSTITUTIONS

Eastern New Mexico University

- Designated programs; 10 students per year

New Mexico Junior College

- all programs

Northern New Mexico Community College

- all programs, except nursing, which is limited to 3 students

Sante Fe Community College

- Alternative Fuels and Hazardous Materials Management

The University of New Mexico Gallup Campus

- all programs

FOUR YEAR INSTITUTIONS

New Mexico Highlands University

- all undergraduate programs

New Mexico Institute of Mining and Technology

- Designated programs; 10 most academically qualified students to be selected; students must apply by March 1 by indicating candidacy on top of Tech's Application for Undergraduate Admission and Scholarship

New Mexico State University

- one program (B.S. Surveying); and all programs for students meeting special GPA and test score requirements

The University of New Mexico

- all programs; new students must meet GPA and test score requirements--application deadline April 30; transfer students must meet requirements for new students and also GPA requirements on 30 college credits--application deadline April 30.

Western New Mexico University

- all programs; student must have GPA of 3.0 with 23 composite ACT or 970 SAT or GPA of 3.5 with 20 composite ACT or 860 SAT; college transfer with 3.25 GPA

NORTH DAKOTA

(North Dakota will accept students from all WICHE States)

TWO-YEAR INSTITUTIONS

Bismark State College

- all programs

Minot State University - Bottineau

- all programs

North Dakota State College of Science

- all programs except AS in Dental Hygiene and AS in Occupational Therapy

University of North Dakota-Lake Region

- all programs

University of North Dakota-Williston

- all programs

FOUR-YEAR INSTITUTIONS

Dickinson State University

- all programs except AS in Practical Nursing and the BS in Nursing Completion.

Mayville State University

- all programs

Minot State University

- all programs

North Dakota State University

- all programs except upper division architecture, nursing and pharmacy. Lower division courses are open to WUE students

University of North Dakota

- designated programs

Valley City State University

- all programs

OREGON

FOUR-YEAR INSTITUTIONS

Oregon Institute of Technology

- designated programs

Oregon State University

- designated programs

Portland State University

- designated programs

University of Portland

- designated programs

Western Oregon University

- designated programs

SOUTH DAKOTA

- Associate Degree programs, available at most South Dakota universities, are open to WUE students as are baccalaureate programs.

FOUR-YEAR INSTITUTIONS

Black Hills State University

- all programs

Dakota State University

- designated programs

Northern State University

- all programs

South Dakota School of Mines and Technology

South Dakota State University

- all programs

University of South Dakota

- all programs

UTAH

- All institutions will admit WUE students in programs currently under-enrolled. Students may apply for WUE consideration in any program offered unless otherwise noted.

TWO-YEAR INSTITUTIONS

College of Eastern Utah

- all programs except nursing

Dixie College

- designated programs

Salt Lake Community College

- designated programs

Snow College

- all programs

FOUR-YEAR INSTITUTIONS

Southern Utah University

- designated programs

The University of Utah

- designated programs

Utah State University

- designated programs

Utah Valley State College

- designated programs

Weber State University

- designated programs

WASHINGTON

(Washington will accept students from all WICHE states.)

WYOMING

(The University of Wyoming will accept students from all WICHE states.)

TWO-YEAR INSTITUTIONS

Casper College

- all programs

Central Wyoming College

- all programs

Eastern Wyoming College

- all programs

Laramie County Community

- all programs

Northern Wyoming Community

- all programs

Northwest College

- all programs

Western Wyoming Community

- all programs

College

- all programs

FOUR-YEAR INSTITUTION

University of Wyoming

- all programs

STATE UNIVERSITIES

THE ARIZONA BOARD OF REGENTS

The Arizona Board of Regents is the governing body of the three public universities. The Governor appoints nine members to the Board subject to Senate confirmation. Each regent serves an eight year term, with the exception of the student regent who serves a one-year term. The Governor and Superintendent of Public Instruction are voting ex-officio members. Board members elect their own officers to annual terms beginning July 1 of each year in accordance with seniority provisions detailed in the bylaws. The appointments are staggered allowing two new regents to be appointed every two years. Board members do not receive a salary for their service. Members of the Board of Regents are responsible for providing policy guidance to the universities. In doing so they oversee the following areas: administration, finance, capital development, student services, human resources, academic affairs, audit, strategic planning, public, and legal affairs.

The Arizona Board of Regents
2020 North Central Ave., Suite 230, Phoenix, AZ 85004-4593
(602) 229-2500

ARIZONA STATE UNIVERSITY

NORTHERN ARIZONA UNIVERSITY

Flagstaff, AZ 86011 • (520) 523-9011 • www.nau.edu

Admissions (520) 523-5511 or 1-888-MORE-NAU (667-3628) Financial Aid - Pell, FFEL, Perkins, LEAP, SEOG, FWS, BIA, and others

Financial Aid 523-4951

Accreditation - NCA For departmental and program accreditation refer to college catalog

Enrollment Fall 1998- 19,940

Admission Requirements - Please refer to the NAU General Catalog available in all high school and community college counselors' offices. Specific information about the university and its programs may be requested through Undergraduate Admissions.

Tuition & Fees 1999-00 - All resident students enrolled for 7 or more hours, in all colleges and divisions, and at all levels (per semester) - \$1,131

All non-resident students enrolled for 12 or more hours, in all colleges and divisions, and at all levels (per semester) - \$4,189

Continuing Education - Statewide Academic Programs - NAU's Statewide Academic Programs brings education to you through web, interactive instructional television, and off-campus courses. With over twenty locations throughout Arizona, including computer labs, TV classrooms, and a network of colleges, many located on community college campuses, NAU Statewide Academic Programs believes your education should know no bounds. Take courses toward your NAU graduate or undergraduate degree, certification, or endorsement at times and places convenient to your schedule and commitments. Courses are taught by NAU faculty, and the degree you earn is the same as that awarded on the main Flagstaff campus. For more information about your learning opportunities with NAU Statewide, call 1-800-426-8315, and say you saw it in the Arizona College and Career Guide, Or contact us by e-mail at statewideprograms@nau.edu or through the web at www.nau.edu/statewide.

PUBLIC COMMUNITY COLLEGES

The community college system makes up the largest segment of public higher education in Arizona. It was established in 1960 under the Arizona Revised Statutes, Title 15, Chapter 6, now Title 15, Chapter 12. It consists of the State Board of Directors for Community Colleges of Arizona and 10 districts each governed by a locally-elected board and located in 11 counties. The districts operate 19 community colleges on 34 campuses throughout the State.

Because of geographical availability, tuition rates generally lower than those of the universities and private postsecondary schools, and the wide variety of degrees, certificates and programs of study offered, practically every resident of Arizona has easy and affordable access to educational services. The educational services provided by Arizona community colleges include:

- the first two years of university-level education—designed for transfer to any Arizona university;
- occupational training programs in technical, vocational and paraprofessional careers;
- general education opportunities;
- continuing education and job skill enhancement;
- academic counseling and job placement services; and
- cultural and community services programs for community enrichment.

Enrollment Requirements

As a prospective Arizona community college student, you must meet one of the following criteria:

- be a graduate of an accredited high school;
- have successfully completed the General Education Development Certificate of High School Equivalency (GED);
- be an individual of 18 years of age who has not completed high school;
- be a transfer student in good standing from another college or community college; or
- be a high school student who wishes to take college courses.

Curriculum Matrix

The State Board establishes curricula and courses for the community colleges. This section includes a curriculum matrix which details the types of educational programs available, the colleges at which they are offered, and the types of degrees or certificates awarded.

Tuition and Fees

The State Board annually approves tuition and fees which may vary depending on the district and geographical location. Tuition and fees for each college are listed under the individual college heading.

Financial Aid

Financial aid programs are available to qualifying students at each community college. Please see the individual college listing for program types and contact the financial aid office at the community college you wish to attend.

Financial Aid 238-4310

Accreditation - NCA

Entrance Requirements - Age 16 and over

Cost - \$18/seven hour training day, \$21.50 with lunch ticket. Add \$200- Books/materials/lab fee, \$5 registration fee.

Open-entry/open-exit: students can enter and graduate according to their rate of learning and prior experience. Most programs average 19 or 27 weeks, 90 -135 training days. (Based on a clock-hour system, with a fee structure based on actual days of attendance.)

A certificate is awarded to students who have completed an approved vocational program designed to make students "job-ready" for entry level positions in that field.

Tours - every Tuesday and Thursday at 9:30 AM - Main lobby.

The Maricopa Skill Center provides entry-level training in eleven areas for anyone over 16 years of age and develops customized short courses for business and industry on an as-needed basis.

The skill Center has perfected an open-entry, open-exit format that allows students to enter and graduate according to their schedule and work at their own pace. The average time needed to complete a course of study is six-months; licensed practical nursing requires 13 months.

The school is open 51 weeks a year and holds 51 weekly graduations. Students attend seven hours a day, five days a week, (the computer lab is open until 9 p.m., Tuesday, Wednesday and Thursday). Students pay only for the hours they spend at the school. Tuition averages \$18 a day.

Students have individualized course outlines that build on the skills they bring to the program. They may request remedial training in math, English, GED preparation and English-as-a-second-language. Work ethic, self-esteem, safety and good work habits are emphasized in all classes.

Many areas give students hands-on training in local business. All utilize their close working relationships with area business leaders to offer the current programs and techniques used in that industry.

The majority of the students have a job in their field within a few weeks of graduation. Many of them are still with that company at the same or better job a year later. MSC's Career and Workforce Development Center provides job search assistance to students and alumni.

TRAINING AREAS:

BANKING/COMPUTERS/OFFICE/RETAIL SERVICES

An ability to handle money and/or computers can lead to jobs in any industry or business in the country.

Students in the MSC Banking/Retail program develop an understanding of business practice and procedures. Students learn, by working in the Center Cafeteria and Meat Market, how to operate cash registers, balance daily receipts and handle cash. The banking program covers bankcard activities, image keyers, lockbox, customer service, data entry, clerking and customer service. Computer activities include ten key, credit card processing, retail sales and cashiering. Students who have mastered the teller machine have an opportunity to work in a local bank two days a week.

The two computer labs, MSC Computer Based Programs and Computerized Office Procedures, offer training in the software programs most used by health care providers, hospitals, government offices and small businesses. They include spreadsheets, Macintosh programs, word processing, desktop publishing, WordPerfect and all the Windows programs.

Job titles such as data entry clerk, payroll clerk, microcomputer software operator and word processing operator are available as training choices. Students interested in the growing travel industry can learn to be a travel agent or reservation clerk.

Those with an interest in working in professional offices, such as medical or legal firms, can ask for specialized training leading to a clerical assistant certificate with a specialty in medical terminology/transcription; legal terminology/transcription.

HEALTH OCCUPATIONS

The MSC Health Occupations cluster allows students a quick entry into the many-faceted world of nursing care. Students who need an immediate job and are interested in the health field can start with the three-week Nursing Assistant (NA) course. Those who are sure about their career choice should look into the eight-week Certified Nursing Assistant (CNA) program which is a prerequisite for the 45-week Practical Nursing (PN) program. Students spend three days a week in clinical care in area health facilities.

Students from all classes have consistently done well on the state certifying and licensing examinations. Graduates are quickly employed in long-term care, acute care, home health care, outpatient facilities and medical centers.

Classes start each month for students who are 18 years of age and older and have successfully met the minimum nursing entrance requirements:

- Three-week class: a 15 on the Wonderlic general ability test.
- Eight-week class: a high school diploma or GED; a 15 on the Wonderlic general ability test and a 44/45 on the SRA math assessment test.
- Practical Nursing program: the successful completion of a CNA program with a grade of B or above within the past three years; a 20 on the Wonderlic general ability test and a 49/54 on the SRA math assessment test.
- All Health Occupations students must have a recent physical exam and current immunization records.

FOOD SERVICE/MEAT CUTTING

Graduates of the MSC Food Preparation and Meat Cutting sequences find jobs in restaurants, country clubs, bakeries, hospitals or wholesale or retail meat cutting facilities. Students learn the practical side of the business by working in the MSC Cafeteria and Meat Market.

Food Preparation students learn the correct way to prepare stocks, soups, sauces, salads, breads, pastries, desserts, meats and main dishes in steam jacket kettles, convection and baker's ovens and all the other pieces of equipment in a commercial kitchen.

Meat Cutting students learn how to cut, slice, weigh, wrap and price meat as well as maintain a deli-case and fix party trays.

THE TRADES

Students who like to work with their hands often find careers in automotive, aerospace, printing or maintenance industries.

The MSC Auto Body sequence can lead to jobs in auto body shops as well as to larger applications in metal repair and refinishing in manufacturing firms. The program has three parts: metal repair, paint prep/detailing and painting. Students learn by repairing and repainting their own or the public's vehicles.

Those who enter the MSC Machine Trades program learn to manufacture and measure machine parts with a \pm tolerance of $\pm .001$. They receive training in using blueprints, shop drawings, precision instruments, manual and Computerized Numerical Control machines.

The MSC Welding course starts with a mastery of simple welded joints and progresses to complex welded joints from flat to overhead positions. Eighty percent of class time is spent in hands-on welding projects. All instruction leads to preparation for the American Welding Society (AWS) D1.1 certification test in Structural Plate or Pipe Welding.

The MSC Printing Trades program gives students hands-on training in the MSC Print Shop. Students use the latest printing equipment to learn the trade: presses with T-heads, darkroom and daylight cameras, platemakers, paper cutters and other bindery equipment.

The practical approach to building maintenance is taught in the MSC Facility Maintenance program. Graduates find work in resorts, educational facilities, office and apartment complexes or governmental office facilities. Each training segment builds on the other, so that the full thirty-week program includes instruction in heating, ventilation, cooling, plumbing, electrical repair and general maintenance. The students work on appliances brought in by the public and maintain several social service facilities as a public service.

SPECIALTY CLASSES:

HIGHWAY CONSTRUCTION PRE-EMPLOYMENT PROGRAM

A six-week course to give women and minorities an overview of the skills needed to succeed in a highway construction career. It includes a look at electrical and carpentry trades, heavy equipment operations, cement finishing as well as strength training, computer literacy and keyboarding, blueprint reading and drawing and structured worksite field experiences.

LEAD ABATEMENT PROGRAM

A six-week course to train JTPA-approved workers in lead abatement, sponsored by the City of Phoenix Neighborhood Services. The first five weeks will include training in tool use, safety, door and window removal and replacement; the sixth week, on lead removal, is taught by the University of California.

CUSTOM CLASSES FOR BUSINESS, INDUSTRY, GOVERNMENT, FOR GROUPS OR INDIVIDUALS:

MSC will develop short or ongoing classes in response to employer or employee needs. These can include introductory, refresher or specific training for any number of students. Courses may be held on or off site.

Federal Correctional Institution — Classes in computers, facilities maintenance and horticulture given at the correctional institution.

Arizona Department of Economic Security — Four-day class on Job Search Skills and an optional fifth day on Life Skills for selected DES welfare clients held at four DES sites.

Arizona Restaurant Association — Five-day introduction to the hospitality industry for graduates of the MSC/DES Job Search Skills class.

Students needing specific skills in any area may work with the instructor to develop a customized lesson plan at no extra cost.

For more information call the Skill Center at 238-4300 or take a tour at 9:30 a.m. any Tuesday or Thursday.

CURRICULA MATRIX FOR ARIZONA'S COMMUNITY COLLEGES FALL 1999 -- SPRING 2000

The following curricula matrix includes all academic and vocational programs offered by Arizona's community colleges during the academic year 1998-99. This matrix indicates the type of degree or certificate awarded at the completion of each program. The approximate length of time required to complete each certificate is also shown.

LEGEND

Degrees:		Certificates (classified according to semester credit hours needed for completion):	
Associate of Arts	1	0-15 semester credit hours	6
Associate of Applied Arts	2	16-30 semester credit hours	7
Associate of Business	2A	31-45 semester credit hours	8
Associate of Science	3	46-60 semester credit hours	9
Associate of Applied Science	4	License position (no certificate)	10
Associate of General Studies	5	Skill Center Certificate	11

DEGREES, CERTIFICATES OR LICENSES

Associate of Arts - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Applied Arts - This degree is awarded to students who complete requirements of a specified two-year program.

Associate of Business - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Science - This is a college degree and is similar to the Associate of Arts degree, except that the student's major emphasis is in science or engineering course work.

Associate of Applied Science - This degree is awarded to students who complete the requirements of a specified two-year program.

Associate of General Studies - This degree is awarded to students who complete an approved two-year program in general studies.

Certificate - A certificate is awarded to students who have completed an approved vocational program. The length of time necessary to complete certificate programs varies depending upon the achievement of the technical skills and competence necessary in a specific program.

COSMETOLOGY and BARBER SCHOOLS

COSMETOLOGY SCHOOLS

All schools are licensed by the Arizona State Board of Cosmetology and accredited by NACCAS unless noted. All schools provide courses which prepare graduates to take the Arizona State Board of Cosmetology licensing examination in either cosmetology, manicuring or student instructor.

The standard enrollment requirements for:

Cosmetology or Manicuring — Two years of high school or GED;

Student Instructor — Current Arizona cosmetology license, one year of experience, high school graduate or GED.

Course length: Cosmetology - 1,600 hours, Manicuring - 300 hours, Student Instructor - 650 hours, Aesthetician - 600 hours.

The standard curriculum for each course may be obtained from the:

Arizona State Board of Cosmetology, 1721 E. Broadway, Tempe, AZ • (602) 784-4539.

Refresher Courses for Cosmetologists

Most cosmetology schools offer brush-up and refresher courses for those with previous cosmetology training and experience. Contact the individual school for requirements and costs.

BARBER SCHOOLS: All schools are licensed by the Arizona State Board of Barbers. Contact the individual school for requirements and costs. You may direct questions to: Arizona State Board of Barbers, 1400 W. Washington, Suite 200, Phoenix, AZ 85007 (602) 542-4498

FLYING SCHOOLS

Arizona flying schools offer various courses to prepare students to qualify for pilot licenses in fixed wing aircraft, helicopters, gliders and air balloons. The requirements for these licenses are established by the Federal Aviation Administration (FAA). The FAA also approves schools which meet established standards of instruction in fixed and rotorcraft. Prospective students should obtain information concerning these requirements by contacting:

Federal Aviation Administration, Flight Standards District Office
15041 N. Airport Dr., Scottsdale, AZ 85260 • (602) 640-2561

REAL ESTATE SCHOOLS

Arizona real estate schools present two basic categories: those which qualify students to meet the licensing requirements set forth by the Arizona Department of Real Estate, and other real estate related courses. The requirements for an Arizona real estate license are:

Real Estate Salesperson — 18 years of age, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Real Estate Broker — 18 years of age, 36 months active, licensed, experience within the past five years, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Professional Continuing Education consists of 24 hours of classes in real estate related, professional subjects, completed every 2 years.

Before a real estate school can issue credit to meet the Department of Real Estate requirements, the school must receive a Certificate of Approval issued by the Department. Prospective students may obtain information on approved schools by contacting:

Arizona Department of Real Estate, 2910 N. 44th St., Suite 100, Phoenix, AZ 85018 • (602) 468-1414, ext 100.

The following Real Estate School Matrix summarizes the courses offered and their costs.

REAL ESTATE SCHOOL COST MATRIX

*Students must be able to read, write and understand English and hold high school diploma or GED Certificate. If no high school diploma or GED is held, Ability to Benefit Test must be taken. Students must have drug screening, Department of Transportation physical, DMV printout, must be at least 18 years old. Students planning to drive out-of-state must be at least 21 years old.

TRAINING, EMPLOYMENT and SKILL CENTERS

There are a number of employment and training centers in Arizona providing counseling, training and educational services. Services provided vary, but generally include vocational counseling and training, job referral and placement, basic education and GED preparation, and English as a Second Language. A few employment and training centers offer onsite vocational skills training at no charge and these are noted. Others refer individual students elsewhere for training, depending upon the student's particular needs, with training fees paid by the referring agency. In either instance, training is generally open-entry and open-exit to allow students to enter class when there is an opening, to progress at their own pace, and to graduate upon attaining the required proficiencies. Interested students should contact the employment and training centers for specific information on the services they provide.

ADULT BASIC EDUCATION AND THE GED

The Arizona Department of Education sponsors programs that offer free classes to adults seeking to improve their communication, reading and math skills. The programs are available to individuals 16 years of age or older who are not currently enrolled in any school. Classes include Adult Basic Education, English for Speakers of Other Languages (ESOL), Citizenship and preparation for the General Educational Development (GED) test. The department also provides GED test sites in more than 120 locations and supports more than 1,000 instructional classes in various locations throughout the state. For additional information call:

APPRENTICESHIP TRAINING

Apprenticeship is an organized system of paid training for those industrial occupations requiring a wide and diverse range of knowledge and skills. As practiced by modern industry, apprenticeship is a formal written plan, encompassing the terms and conditions of employment, training and related technical instruction. A worker entering the industry is given continuous supervised instruction, both on and off the job, in all practical and theoretical aspects of the work required in a skilled occupation.

Apprenticeship terms range from one to five years, depending upon the particular trade involved. Each apprentice works 40 hours per week and is required, in addition, to take related supplementary classes totaling 144 hours per year. The starting pay of apprentices is 40 percent to 60 percent of a journeyman's (skilled craftsman's) pay. The wages increase with the skill acquired, usually at 6-month intervals.

To qualify, applicants must be at least 16 years of age, in good health, and have an acceptable personality, including the ability to work with others. A high school diploma or GED is required and one to two years of vocational training is helpful. Applicants must also show through aptitude testing that they have the ability to learn specific job duties.

Applicants are evaluated and, if successful, are placed on a waiting list. The competition for apprenticeships is intense and the openings are often extremely limited. Therefore, apprenticeship does not represent immediate job possibilities even after the application process has been completed.

There are over 100 occupations in Arizona that may currently be learned through an apprenticeship program and the application process varies for each. After an individual has selected an apprenticeship trade, he or she should contact Apprenticeship Services. Apprenticeship Services distributes all information on apprenticeships in Arizona (including requirements and openings), and counsels individual applicants.

HOMELESS PROGRAMS

The Stewart B. McKinney Homeless Assistance Act provides programs to meet the needs of homeless people: Emergency Shelter & Food, Mental & Physical Health Care, Housing, Job Training & Other Services.

Two provisions deal directly with the issue of employment:

- The Act has added homeless people to the definition of those that are eligible for JTPA programs and eliminated the requirement for proof of residency as a condition for eligibility acceptance. Please refer to the JTPA section in this booklet.

INDIAN & NATIVE AMERICAN EMPLOYMENT & TRAINING PROGRAMS

The passage of the federal Job Training Partnership Act (JTPA) in 1983 made tribes eligible to receive direct funding under Title IV to provide job training and employment activities. Tribes are also eligible for benefits under JTPA Titles II-A and II-B and II-C which are allocated through the Arizona Department of Economic Security (DES) to the nineteen Tribes under the Tribal Services Delivery Area. Ten (10) inter-governmental contracts and one (1) non-governmental contract exist between the DES and the following tribes for various Title II services:

- | | |
|---|---|
| • Colorado River Indian Tribes | • Pascua Yaqui Tribe |
| • Gila River Indian Community | • Quechan Tribe |
| • The Hopi Tribe | • Salt River Pima-Maricopa Indian Community |
| • Hualapai Tribe | • San Carlos Apache Tribe |
| • Intertribal Council of Arizona Inc.
(Consortium of 7 tribes) | • Tohono O'odham Nation |
| | • White Mountain Apache Tribe |
| | • Yavapai-Apache Nation |

JOB CORPS

Opportunity awaits at the Phoenix Job Corps for vocational training, GED preparation, ESL and social skills development. Supervised dormitory living is offered seven days a week, twenty-four hours a day. Students may also live at home while attending classes during the day. Training occurs Monday through Friday from 8:00 am to 4:00 pm. Benefits include bus cards, meals, medical care, small living allowance and child care allowance, cash bonuses for good performance, counseling and job placement after graduation. All training and program benefits are free to those who qualify. Candidates must be 16 through 24 years of age, not attending school, underemployed or unemployed, and from low income households. For more information call the Admissions Department at (602) 254-5921 or visit the Center at 518 S. 3rd St. in Phoenix. Public tours every Monday at 9:00 am. Job Corps is federally funded and is administered by the US Department of Labor.

JOB SERVICE

The federal Wagner-Peyser Act provided for the establishment of the U.S. Employment Service with a system of public employment offices nationwide. Wagner-Peyser funds received by Arizona are used for many job related services including: Job Search/Placement Services, Counseling Services, Recruitment Services, Occupational Testing, Layoff Services, Technical Services for Employers,

Occupational & Labor Market Information, Assessment & Referral to Employers.

THE JOB TRAINING PARTNERSHIP ACT (JTPA)

The mission of the Federal JTPA is to establish programs to prepare youth and unskilled adults for entry into the labor force and to afford job training to those economically disadvantaged individuals and other individuals facing serious barriers to employment, who are in special need of such training to obtain productive employment. It also provides basic readjustment and re-training services to eligible dislocated workers. Federal JTPA funds are directed through the Governor's office and administered by the Job Training Partnership Act Administration within the Arizona Department of Economic Security. Arizona DES then distributes the funds based on a formula to local service delivery areas or substate areas to provide the services to residents.

OLDER WORKERS

The Arizona Aging & Adult Administration (A&AA) is responsible for the administration of a statewide system of social services and programs for the elderly. A&AA administers the Senior Community Service Employment Program which is funded through Title V of the Older Americans Act. It provides employment and training opportunities for persons over 55 years of age or older who have incomes at or below the federally established poverty level. Qualifying requirements are: Age 55 or older, Must be an Arizona resident, Current income does not exceed 125% of the federal Office of Management and Budget poverty level. A&AA also administers the JTPA 5% older worker job training program. Job training benefits may be obtained by individuals that are economically disadvantaged and at least 55 years of age.

SELF-SUFFICIENCY FOR PUBLIC ASSISTANCE RECIPIENTS

The Jobs Program is part of Arizona's initiative Employing and Moving People Off Welfare and Encouraging Responsibility (EMPOWER). EMPOWER is Arizona's response to the federal Personal Responsibility and Work Opportunities Reconciliation Act of 1996 (PRWORA). The Act provides block grant funds to states for the purpose of aiding needy families on a temporary basis while they prepare for, obtain and retain employment. The goal of the Jobs Program is to reduce dependence on public assistance by providing cash assistance recipients with employment services such as child care and a transportation allowance.

VETERANS PROGRAMS

The Veterans Education Training and Support Services (VETSS) Program provides rehabilitation through classroom and on-the-job training. Each student is provided with housing, medical support, transportation, remedial academics and alcohol or drug treatment if necessary.

The program operates from the Prescott VA Medical Center at (520) 445-4860.

Employment and training services for veterans are authorized by Part C of Title IV of the Job Training Partnership Act. Current Arizona programs are:

- The Disabled Veterans' Outreach Program (DVOP) which may serve even non-disabled veterans with evaluation, counseling, referral and barrier removal services.
- The Local Veterans' Employment Representative Program (LVER) assists vets in obtaining meaningful employment by maintaining communication and advocacy with employers, labor unions, training programs, and veterans' organizations.

For more information on these programs, please call:

VOCATIONAL GUIDANCE: THE OCCUPATIONAL INFORMATION SYSTEM OF ARIZONA

The Occupational Information System of Arizona (OIS) is a computerized assessment resource that delivers up-to-date information on Arizona occupations, employers, postsecondary schools, and apprenticeship programs. When the active job seeker is administered OIS interest and aptitude tests, the results are used to identify occupations suitable for them. The OIS is available in over 600 sites in Arizona including high schools, middle schools, private vocational rehabilitation firms, job service offices, community colleges, correctional facilities, and military bases. Contact your local Job Service office or community college counseling center for information regarding current OIS availability.

Arizona State Occupational Information Coordinating Committee (ASOICC) at (602) 542-3871.

VOCATIONAL TECHNOLOGICAL EDUCATION

Arizona provides a comprehensive system of vocational technological education utilizing middle and junior high schools, high schools, vocational/technical centers, community colleges and community-based organizations. Vocational technological programs are designed to provide students with vocational exploration, core skill development and specific vocational preparation. Vocational technological programs provide students with a coherent sequence of instruction, integrate academic and technical skills, and assist students as they obtain employment and/or continue their education.

These programs are supported through a variety of state and local funding sources. Programs also receive financial support through various federal sources, including the Carl D. Perkins Act. The State Board of Vocational and Technological Education, in conjunction with the State Board of Directors for Community Colleges of Arizona, provides leadership and support for this system of vocational technological education.
